presents the big themes in philosophy and history and reveals how certain ideas have shaped our civilization  
respected historian felipe fernandez armesto offers an unashamedly personal analysis on a wide range of ideas from the afterlife to taboo foods that will keep readers enthralled from publisher description

in these thought provoking witty essays some of america s most distinguished geographers explore ten geographic ideas that have literally changed the world and the way we think and act they tackle ideas that impose shape on the world ideas that mold our understanding of the natural environment and ideas that establish relationships between people and places the contributors who include several past presidents of the association of american geographers members of the national academy of sciences and authors of major works in the discipline are elizabeth k burns patricia gober anne godlewska michael f goodchild susan hanson robert w kates john r mather william b meyer mark monmonier edward relph edward j taaffe and b l turner ii

incredible inventions and the stories behind them big ideas that changed the world is all about the inventions that don t just change the way we do things but change the world we live in from matches to mobiles antibiotics to the flexible drinking straw marvel at some of the world s most amazing discoveries that have made a sensation kids will love the incredible facts and info did you know that the tin can was invented 60 years before the can opener read on in wonder at the stories behind each ground breaking discovery the scientists and inventors ideas and knock on effects some of the biggest ideas covered include the model t ford edison s lightbulb catseyes and the first apple computer if you ve ever wondered how some of our greatest inventions came to be big ideas that changed the world previous isbn 9781405356831 will show you

this inspiring book chronicles the most influential ideas that have shaped industrial and product design written by two experts on modern design it provides a concise history of the subject and offers a fascinating resource to dip into for the general reader from the origins of modern design in the craft movements of the 19th and early 20th century and the changes brought about by mass production the book traces the most important ideas in design through the modern movement and post war consumer society to more recent ideas such as open source design and biomimicry

looks at some of the ideas beliefs and ideologies that have shaped history and influence the way we live and think today

from the light bulb automobile and computer to vaccinations and tectonic theory this text reports on the most significant scientific and technological breakthroughs in the form of ideas inventions and discoveries that have driven human progress

it is so often said that an understanding of the present relies upon an understanding of the past in the present age the truth of this is perhaps less patent than formerly never before has the world been so divided by conflicting ideologies never has so much depended upon the finding not perhaps of a reconciliation of the ideologies but of a means of coexistence the very continuation of the human race would seem to hang upon a solution of this problem through all these lectures runs a single thread the inevitability of the freedom of man even if that freedom is liberty for self destruction all history has shown that domination of man by man must in the end bring revolt passive or active when the right of the individual or the group triumphs over suppression the past may no longer be a certain guide to the future let us hope that in this one respect history will be the signpost and that intolerance and exploitation and inhumanity of man to man may some day vanish from the earth kwame nkrumah from the foreword

an elegant addition to the successful 1001 series a comprehensive chronological guide to the most important thoughts from the finest minds of the past 3 000 years 1001 ideas that changed the way we think is a comprehensive guide to the most interesting and imaginative thoughts from the finest minds in history ranging from the ancient wisdom of confucius and plato to today s cutting edge thinkers it offers a wealth of stimulation and amusement for everyone with a curious mind within the pages of this book you will find a wide variety of answers to the great eternal questions how was the universe created and what is the place of humans within it how should a person live and how can we build a just society 1001 ideas that changed the way we think also includes a host of hypotheses that are remarkable for their sheer weirdness from the concept of the transmigration of souls to parallel universes and the theoretical paradoxes of time travel what happens if you travel back in time and kill your own grandfather discover how the greek philosopher zeno proved a flying arrow never moves how modern science has shown that a butterfly s wing can stir up an atlantic storm and the mathematical proof of the existence of life in other galaxies the inspirational ideas explored here range from gandhi s theory of civil disobedience to henry david thoreau s praise of the simple life and mary wollstonecraft s groundbreaking advocacy of women s rights the book also covers a wide variety of lifestyle concepts such as rational dress and naturism and cultural movements including neoclassicism surrealism and postmodernism supported by a wealth of striking illustrations and illuminating quotations 1001 ideas that changed the way we think is both an in depth history of ideas and a delightfully browsable source of entertainment

seventy years ago mortimer adler sat down at a manual typewriter by his side was a list of authors a pyramid of books and 102 great ideas the 102 objects of thought that have collectively defined western thought for more than 2 500 years he began writing in alphabetical order beginning with angel and ending with world the essays originally published in the syntopicon were and remain the centerpiece of encyclopaedia britannica s great books of the western world these essays never before available except as part of the great books are according to clifton fadiman adler s finest work each essay war and peace love god truth treats each idea as if the original authors from homer to freud from marcus aurelius to virginia woolf whose writings the ideas are drawn from were sitting around a table deep in conversation his purely descriptive synthesis presents the key points of view on almost 3 000 questions without endorsing or favoring any one of them more than a thousand pages containing more than half a million words on more than two millennia of western thought the great ideas is a fitting capstone to the career of mortimer j adler the actual writing of the essays took 26 months seven days a week and no vacations or recesses writing the 102 essays was like writing 102 books i think it was the most arduous and demanding stint of writing i have ever undertaken mortimer j adler
